

## BEVERAGE PACKAGES

With a site perfect for Macclesfield's unique micro-climate, Longview Vineyard produces exceptional fruit for graceful cool climate wines. The Adelaide Hills is traditionally known for its white wines but Longview pushes the envelope with some of the most awarded reds of the region. With a drive for elegance and balance, complexity and longevity, every berry in every drop of Longview is grown on the estate.

Each of our beverage packages are available in a variety of lengths, ranging from 5 hours to 8 hours and can be customised on request. For further information on pricing please contact our events team.
